

HAGGIN OAKS GOLF SUPER SHOP

The historic Haggin Oaks Golf Complex in Sacramento, CA, recently expanded its Golf Super Shop to 18,000 sq. ft.

THE CHALLENGE

Adding square footage to the existing Haggin Oaks Golf Complex without disrupting the day-to-day retail operation as well as staying within an allotted expansion space presented challenges. Given that the expansion area was at the edge of a parking lot that operates 365 days a year and the addition was for a high-volume retail space, the project required extra-careful thought and planning.

THE SOLUTION

Mobile Modular installed five new permanent modular buildings totaling 3,500 square feet of retail and office space, designed to match the existing structure. The added space was opened via three doorways into the existing structure only after the added-on buildings' interior had been fully completed, including fireproofing. The result is a new cutting-edge Player Performance Putter Fitting Studio, the highly-anticipated "Wall of Shoes" that features a 28-foot acrylic wall filled with 2000 recycled water bottles, and several build-outs featuring top golf footwear.
